To our business partners

24.03.2020

We are facing difficulties

Dear Sir or Madam,

Due to the current situation, we have to inform you today about possible upcoming problems as a result of the corona virus. The spread of the corona virus increasingly creates restrictions in all areas of society, Unfortunately, the construction sector is involved too.

We have already informed our customers about possible shortage of supply. We will try to meet all delivery agreements made in due time despite the expected restrictions. In individual cases we will have to rely on force majeure according to BGB § 275 or 313. If our departments or our company has to be temporarily closed, we can no longer completely ensure many processes. The running cash discount agreement is related to it. We would like to point out today that we can no longer accept cash discount periods from receipt of the invoice if the worst case come into truth.

In the case of warehouse / company closings, deliveries could possibly no longer be canceled on time. Under no circumstances may goods be dropped off at the gates or at unoccupied construction sites without our acceptance. Accordingly, additional cost caused by this will not be taken over by us.

We would like to prepare possible scenarios in which we build on our partnership. We kindly request your understanding of our information. You may have already started risk management for your company. Let's go through the difficult time together. We will do all the best to ensure the highest possibility of delivery.

Sincerely,

Team of Schuhmacher GmbH
